NEW ENGLISH CHRYSANTHEMUMS

SURPLUS STOCK CLUMPS

Now that all the clump orders are filled and 20,000 clumps moved into the greenhouses for winter propagation, we find that we still have a surplus of quite a number of varieties to offer. We grew better than three acres of these Early English Chrysanthemums this year.

Due to the mild weather here in our Pacific Northwest, we can dig and ship these at any time we receive your order.

We also are planning on having enough Rooted Cuttings to be able to offer them wholesale also and are listing the prices of the same on this list. Be sure and keep this list as it will be the last wholesale list that we offer until next fall.

Clumps are for immediate delivery. Rooted Cuttings are to be shipped early spring. Please state shipping date you would like Rooted Cuttings shipped. Please state a second choice in clumps as we might be out of something when your order comes. Would appreciate both clump and plant orders as soon as possible as it will be a big help to us if the orders are in early.

Orders sent express collect; 25% deposit required on C.O.D. orders.
